Business

West Lothian College

Content

This course is for students who have completed HNC business and who want to progress to a degree in business studies or into employment in business-related disciplines. It includes work experience through placements and/or volunteering.

You will learn about business contractual relationships, preparing financial forecasts, managing business culture and strategy, management and leadership at work, economics micro/macro and the world economy, starting a business plan, project management.

Today, social media and sustainability are important parts of business, so the course has been updated to include social media for business and sustainable development. A final graded project assesses your ability to apply what you have learned to a real-world business issue.
