Art Portfolio Production

West Lothian College

Content

The course is for ambitious students wishing to produce an extensive and relevant portfolio for application to advanced studies in any art or design discipline within art, design or the creative industries.

The course lays the foundations for degree-level study; developing your research skills and professional studio practices. You will be continuously broadening and deepening your understanding of contemporary practices within art, design and the creative industries.

The course covers exploration, experimentation and creativity within different art disciplines including drawing, painting, two-dimensional practices, video, digital practices, photography, printmaking, visual and contextual research, life drawing, three-dimensional practices, public art, installation, live art and sound art.

It provides a studio environment and opportunities that mirror industry standards.
