

## Audio Engineering (2nd year entry)

University of the Highlands and Islands (UHI)

### Venues

UHI Perth  
Virtual Learning Environment (VLE)

### Content

Unleash your creative potential on Scotland's oldest audio engineering course - where sound meets innovation! With a rich history spanning decades, UHI offer a unique opportunity to step into the world of audio excellence and dive deep into music production, game audio, sound design, and live sound, all under the guidance of industry veterans in state-of-the-art recording studios.

Whether you aspire to produce music, design captivating audio for games, or engineer unforgettable live performances, this course will provide the foundation you need to succeed in the dynamic world of audio.

**Music production:** master the art of producing music across genres. Learn the intricacies of recording, mixing, and mastering to create tracks that resonate.

**Game audio:** discover the captivating world of interactive sound design. Learn how to create immersive audio experiences that enhance gameplay and engage players.

**Sound design:** explore the creative process behind sound effects and audio for film and media. Develop your unique sound palette and bring stories to life through audio.

**Live sound:** gain practical experience in live sound engineering. From festivals to intimate gigs, learn how to manage sound in dynamic environments.
