

Architectural Technology

University of the Highlands and Islands

Venues

Inverness College UHI
Virtual Learning Environment (VLE)

Content

If you are passionate about architecture and the technology that surrounds design in the built environment, then this innovative BSc (Hons) Architectural Technology course is for you.

You will gain the theoretical and project-based skills required within a modern architectural practice, including an excellent understanding of managing projects from conception through to completion.

The course combines simulated design office practice, site visits and regular project work to ensure that you gain the necessary skills demanded by the architectural industry, such as building information modelling and technical design.

Working with professionally qualified tutors you will gain valuable and essential skills making you highly employable as an architectural technologist.

Start Date

September

Qualification

Degree
