

Civil Engineering

Heriot-Watt University

Venues

Edinburgh Campus

Content

This programme is designed to equip you with the knowledge and skills to work at a high level in the design and construction of major infrastructure projects.

Semester 1

Choose 4 from the following: Environmental geotechnics; Environmental hydrology and water resources; Ground engineering; Interdeterminate structures; Sustainability in civil engineering; Project management: theory and practice.

Semester 2

Choose 4 from the following: Earthquake engineering; Foundation engineering; Safety, risk and reliability; Urban drainage and water supply; Water and wastewater treatment; Project management: strategic issues.

You can exit at the end of Stage 1 with PgDip Civil Engineering.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Distance and Flexible learning

Award Title

MSc

Course Length

2 - 7 years

Faculty

School of Energy, Geoscience, Infrastructure and Society

Department

Civil and Structural Engineering

Entry Requirements

For MSc level a minimum of 2:2 honours degree or equivalent academic qualification in cognate and semi-cognate subject area.

For PgDip a Third class honours degree in a cognate or semi-cognate subject area PLUS 2 years of relevant experience at an appropriate level completed post qualification.

SCQF Level

11
