

Light Vehicle Maintenance and Repair Principles (IMI) Diploma Level 3

Edinburgh College

Venues

Sighthill Campus

Content

If you have recently finished the Level 2 Diploma in Light Vehicle Maintenance and Repair and wish to progress to the next stage of learning, then this course is designed for you. The course will cover diagnostic maintenance and repair focusing on the following areas: Chassis, Transmission, Engine, Electrical and Digital Systems.

The course is taught at Edinburgh College's Sighthill campus in our workshops and lecture rooms by teachers with industry experience. Workshop learning will allow you to work on live vehicles to best simulate a realistic working environment. The workshops have all the necessary resources for you to fully engage in the motor vehicle industry.

This course will prepare you for employment in the light vehicle maintenance industry or onto further study.

Content includes: Chasses systems; Transmission systems; Engine systems; Electrical and Digital systems.
