

Electrical and Electronic Engineering (University Route) (Years 1 and 2 only)

Edinburgh College

Venues

Midlothian Campus

Content

If you want to pursue a career as an electrical engineer, this course is designed for you.

Electrical and Electronic Engineering is a two-year course taught at Edinburgh College's Midlothian campus that, once complete, allows you to enter university as a third-year student.

In year one, you will follow the HNC Electrical Engineering course. You will learn essential industry skills through various units, including Mathematics and Engineering.

Progression to the HND will provide you with practical skills and an understanding of advanced electrical concepts and theories. You will use the latest software and study technical subjects to gain a practical understanding of Analogue Digital Electronics and Microcontroller Units (MCU).

Start Date

August

Qualification

Degree

Study Method

Full time

Award Title

BEng Hons

Course Length

2 years

Department

Electrical Engineering

Entry Requirements

Higher Maths and Physics at B.

SCQF Level

8
