Edinburgh Campus

Content

The BEng programme gives you a sound understanding of both the chemical and process engineering fundamentals that you need to become a professional engineer. In addition to a grounding in science, maths and engineering, our students acquire practical abilities that are highly sought after by industry.

The BEng in Chemical Engineering is a four-year degree which can include an additional 5th year of study, resulting in the programme becoming a more advanced MEng degree. You will choose which route to follow at the end of your 4th year, giving you the flexibility to decide which degree best suits your career ambitions.

Final year BEng students undertake a group-based design project that consolidates the subjects taught across the programme.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BEng Hons

UCAS Code

H800

Course Length

4 years

Faculty

School of Engineering and Physical Sciences

Department

Chemical Engineering

Entry Requirements

2024 entry requirements:

Standard entry: 4 Highers at ABBB including Maths and Chemistry at B plus English at National 5.

Widening access entry: 4 Highers at BBBC including Maths and Chemistry at BB plus English at National 5.

For entry to year 2 you would require Advanced Higher Maths and Chemistry at BB plus 4 Highers at ABBB.

SCQF Level

10
