Content

Chemistry is a dynamic and exciting subject which makes many important contributions to the world. It is a major contributor to the Scottish and UK economies and as such is a secure career pathway. Chemistry plays a crucial role in developing new medicines, materials and energy sources using greener methods for a better future.

The courses within the five-year MChem Chemistry include extensive laboratory work throughout. They provide students with hands-on experience and opportunities to link theoretical knowledge from lectures to the real world. As a result, students develop practical lab experience as well as much needed teamwork, problem solving and communication skills.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MChem

UCAS Code

F101

Course Length

5 years

Faculty

School of Engineering and Physical Sciences

Department

Chemistry

Entry Requirements

2024 entry requirements:

Standard entry: 4 Highers at AABB including Chemistry at A and Maths, Engineering Science or Physics plus English at National 5.

Widening access entry: 4 Highers at BBBC including Chemistry at B and Maths Engineering Science or Physics plus English at National 5.

For entry to Level 2 you would require Advanced Higher Maths and Chemistry at BB plus 4 Highers at AABB.

SCQF Level

11
