

Technology Management

Open University in Scotland

Content

This MSc will provide you with the knowledge and skills critical to making the right decisions about technology strategy, innovation and management to make a real difference to your organisation. You'll begin by focusing on the operational aspects of managing technological innovation and change. You'll then explore a range of capabilities that are key to the strategic development and management of technological innovation. Your studies will conclude with an in-depth investigation of a technology management topic or problem of your choice.

On completion of Stage 1 students can exit with a Post Graduate Certificate in Technology Management.

On completion of Stage 2 students can exit with a Post Graduate Diploma in Technology Management.
