

Green Technology

Scotland's Rural College (SRUC)

Venues

Ayr Campus

Content

The course aims to improve our sustainability through implementing technologies which improve the efficiency with which we use energy and technologies which can concentrate energy into forms useful to us, such as electricity, gas, heat and biofuels.

You will develop a foundation in practical technical skills and an understanding of scientific principles and environmental issues. You will learn about small-scale renewable energy systems, energy efficiency, pollution control and waste management. Lectures will be supplemented by visits to companies and development sites.

Start Date

September

Qualification

HND

Study Method

Full time

UCAS Code

89FC

Course Length

2 years

Department

Animal, Biological and Agricultural Sciences

Entry Requirements

2 Highers at CC including Geography or a science subject plus English and Maths at National 5.

SCQF Level

8
