Economics (Arts) (Combined)

University of St Andrews

Content

Economics is a social science concerned with the production, distribution and consumption of goods and services. Modern economics is a broad discipline that links almost all aspects of human behaviour and interactions, from running a business and purchasing stock to getting married and taking a job.

Finance is the study of managing available funds, including saving and lending money, cash at hand, and risk. It includes areas of personal, corporate or public finance relating to incomes, expenditure, debts, loans, balancing risk, profitability and value of stock.

The courses at St Andrews provide structured, cumulative and rigorous explorations of key concepts, principles, analysis, techniques and knowledge. Graduates from the School of Economics and Finance have progressed to a broad range of opportunities including banking, finance, consultancy, government and public policy, and research.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MA Hons

UCAS Code

Please refer to list below

Course Length

4 - 5 years

Faculty

Faculty of Arts

Department

Business School
