City of Glasgow College

#### **Venues**

City Campus

#### Content

Quantity Surveyors (also known as Construction Cost Consultants or Commercial Managers) manage all costs relating to building and civil engineering projects, from the early design plans, through to completion. Quantity Surveyors seek to minimise the costs of a project and enhance value, while still achieving the required standards and quality. Many of these are specified by statutory building regulations, which the surveyor needs to understand and adhere to.

The HND in Quantity Surveying is a technician level qualification that combines a construction industry specific first-year curriculum with a more specialist second-year curriculum that equips you with the skills required for employment in this specialist industry sector.

You'll be taught by staff with significant Construction Industry experience and a proven track record of bringing out the best in their students.

#### **Start Date**

August

## Qualification

HND

## **Study Method**

Full time

## **Course Length**

2 years

## **Department**

**Built Environment** 

## **Entry Requirements**

2 relevant Highers, or NQ Built Environment (Level 6). Interview.

## **SCQF Level**

8

## **SCQF Points**

«SCQFPoints»

## **Progression Routes**

Further study for BSc (Hons) degree courses in Construction Management, Quantity Surveying, Building Surveying or Building Control at Glasgow Caledonian, Heriot Watt or Edinburgh Napier universities.

## **Combination Courses**

«htmlCombinationCourse»

«htmlCombinationUCASCode»

## **Address**

City Campus 190 Cathedral Street Glasgow G4 ORF
