

3D Design: Interior Design (2nd year entry)

City of Glasgow College

Venues

City Campus

Content

This course builds on the skills and knowledge gained in HNC Interior Design and allows you to further develop the creative, analytical, technical and professional skills required for a career in interior design

You'll study:

Advanced practical application of the design process through a series of challenging and exciting interior design projects, which vary in scale and type, including hotels, restaurants, cafes, shops, and museums; Professional practice; Construction and detailing; Lighting Building Regulations.; 3D Digital Modelling (CAD).

Including how these integrate with and inform your design projects.

You will also undertake an advanced personal investigation into Design History and context.

Portfolio preparation is also a key focus within HND as students prepare to progress to Degree level study or employment in an Interior Design practice.
