

Creative Industries: Television

City of Glasgow College

Venues

City Campus

Content

This course develops the skills you require for television production. It is designed to focus on the creative and practical skills required in single camera and studio production, while supporting practical experience of camera, sound, lighting, directing, editing and production management.

This creative, learner-focused course is delivered by highly professional teaching staff, with significant development and production experience and a proven track record of bringing out the best in their students.

You will learn in our state-of-the-art television studio developing valuable skills in a multi-camera environment and also take part in industry-led single-camera projects in both factual and corporate production using industry standard production tools and post-production workflows.
