

Process Technology and Management

University of Strathclyde

Content

The course is accredited by the Institution of Chemical Engineers (IChemE) – the global professional membership organisation for chemical engineering professionals.

It's suitable for graduates of related science and engineering disciplines who are working in chemical and process industries. For these students, there will be a chemical engineering conversion semester at the start of the course.

You can exit at the end of 12 months with PgCert Process Technology and Management

You can exit at the end of 24 months with PgDip Process Technology and Management

Start Date

September

Qualification

Postgraduate Master's

Study Method

Distance and Flexible learning

Award Title

MSc

Course Length

36 months

Faculty

Faculty of Engineering

Department

Chemical and Process Engineering

Entry Requirements

Normally at least a second-class honours degree or higher, or overseas equivalent, in chemical engineering or a relevant engineering, technology or science discipline will be required to begin the course. Other qualifications may be considered if they meet the same standard.

SCQF Level

11
