

Hydrogeology

University of Strathclyde

Content

Throughout the globe, the issues of water scarcity, water security, water economics and health and sanitation all rely on high-quality hydrogeology knowledge. This MSc will prepare you as a functional hydrogeologist to meet the needs of: industry; regulators; non-governmental organisations; government; consultants.

The degree is accredited as meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired a partial CEng accredited undergraduate first degree.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

12 months

Faculty

Faculty of Engineering

Department

Civil and Environmental Engineering

Entry Requirements

Normally, a first or upper second-class Honours degree from a UK university (or equivalent overseas qualification) in earth sciences, environmental sciences, civil engineering, environmental engineering, water engineering or other related disciplines.

Lower degree classifications might be considered if there is strength elsewhere (for example, relevant work experience, excellent final project/dissertation, very strong academic letter of reference, very strong application statement linking with career goals).

SCQF Level

11
