

## Mathematics (Arts and Social Sciences)

University of Aberdeen

### Venues

Old Aberdeen Campus

### Content

First year: Students take up to four mathematics courses. Three of these are compulsory: two introductory courses in Analysis (Calculus 1 and 2) and a course in Algebra. The fourth course, which is optional, covers a range of mathematical topics.

Second year: Students take up to five mathematics courses. Four of the courses are compulsory. Of these, two are Analysis courses, one is in Set Theory and Algebraic Structures and one is in Linear Algebra. The optional course is in Probability Theory.

Third year (Junior Honours): In third and fourth year taken together, Mathematics students take a total of 14 courses (plus 2 courses of enhanced study). In third year, most of these are compulsory and cover topics which are essential for any further study, for example Complex Analysis, Group Theory, Ring Theory and Topology of Metric Spaces. There are further courses, some of which are optional, covering a variety of topics from Pure and Applied Mathematics, such as Mechanics, Mathematical Methods of Physics, Stochastic Processes and Linear Optimisation.

Fourth year (Senior Honours): In fourth year there are now even more options, and they depend to some extent on whether a student wishes to obtain a degree in Mathematics or in Applied Mathematics. The programme includes courses on Measure Theory, Galois Theory, Mathematical Modelling and Nonlinear Dynamics, along with a range of optional courses (which may vary from year to year) from Pure and Applied Mathematics, reflecting the research interests in the Department. There is a major project which involves presenting an individual report.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

MA Hons

### UCAS Code

G102

## Course Length

4 years

## Faculty

Arts and Social Sciences

## Department

Social Science

## Entry Requirements

2026 entry requirements:

Standard entry:

4 Highers at BBBB including Maths plus English at National 5.

For second year entry you would require the above plus 2 Advanced Highers at AB including Maths.

Widening access entry:

3 Highers at BBC including Maths plus English at National 5.

1 Foundation Apprenticeship is accepted in place of a Higher.

## SCQF Level

10
