

# Electrical and Mechanical Engineering

University of Strathclyde

## Content

The combination of mechanical, electrical, electronic, computing, measurement and control elements are now an important part of most modern engineering systems and are essential to meet new challenges in engineering innovation.

Examples include energy generation, hybrid petrol/electric vehicles, aircraft design, satellite technology, robotic systems and technology for a sustainable environment.

Year 1:

Maths, electronics, electrical engineering, mechanics, and engineering modelling; practical labs and project work introduce design and build activities.

Year 2:

You learn about electromagnetism, digital electronics, and mechanics to develop core engineering skills.

Year 3:

Specialist topics include instrumentation and microcontrollers, dynamics, and integrated design of mechanical systems.

Year 4:

Individual design project in your chosen specialism and technical subjects including systems engineering, communications networks, and flight and spacecraft.

## Start Date

October

## Qualification

Degree

## Study Method

Full time

## Award Title

BEng Hons

## UCAS Code

HH63

## Course Length

4 years

## Faculty

Faculty of Engineering

## Department

Electronic and Electrical Engineering

## Entry Requirements

2027 entry requirements

Standard entry:

4 Highers at AAAB including Maths at A and Engineering Science or Physics at A plus English at National 5 (Higher preferred). Advanced Higher Maths and Physics recommended.

Widening access entry:

4 Highers at BBBB including Maths and Engineering Science or Physics plus English at National 5 (Higher preferred). Advanced Higher Maths and Physics recommended.

A Foundation Apprenticeship is accepted in place of a non-essential Higher.

## SCQF Level

10

## Progression Routes

«ProgressionRoutes»

## Combination Courses

«htmlCombinationCourse»

«htmlCombinationUCASCode»

## Address

16 Richmond Street  
Glasgow  
Glasgow City  
G1 1XQ
