

Secondary Education (Computing) (PGDE)

University of Strathclyde

Content

Computing is one of the fastest developing subject areas in secondary education. Computing skills are quickly becoming integral to success in the modern world where technology is developing at a rapid rate. The course offers a wide spread of university and school-based learning experiences to ensure students are well equipped to enter the teaching profession.

Teaching computing is becoming as important as English and Mathematics as it's fundamental to modern life. There's an amazing satisfaction in empowering the next generation to cope in a digital environment.

You'll spend 18 weeks of the course on placement in a school within Scotland. You'll be continually assessed while there to show you meet the requirements for the Standards for Provisional Registration.

Start Date

August

Qualification

Postgraduate Diploma

Study Method

Full time

UCAS Code

8X03 (Gaelic Medium 8X04)
