

French (Combined)

University of Strathclyde

Content

French is a major international language. It's the first language of more than 100 million people across the world, while more than 60 million people speak French as a second language.

Studying this course will give you the chance to become a fluent linguist and, with our year abroad programme, an opportunity to experience living, working and/or studying in another country.

Year 1: two streams are offered – one for students with Higher French or an equivalent qualification and another for beginners; both classes study contemporary French language and aspects of culture and society covering topics such as The Making of Modern France, Understanding the French Republic, France in a Global Context and French Identities.

Year 2: develop further reading, writing, speaking and listening skills; in cultural classes, you learn more about the history and politics of France and French-speaking countries through topics including immigration in France, the French economy and education system.

Year 3: you have the opportunity to study abroad with one of University of Strathclyde's French exchange partners; or continue your studies in Glasgow with a group project and advanced translation classes.

Year 4: year abroad in France, working as an English language assistant, or studying at one of University of Strathclyde's exchange partners.

Year 5: focus on translation, written and oral language and interpreting; cultural classes in areas such as the Occupation and its portrayal in French films, France since 1945 and Images of Women.

Start Date

October

Qualification

Degree
