

Speech and Language Pathology

University of Strathclyde

Content

Speech and language therapists assess and treat a wide variety of speech, language and communication problems. This course, which provides a route into this profession, is the longest established in Scotland and one of the oldest in the UK.

You'll take part in work placements throughout the four years. This is one of the only programmes in the UK to offer a dedicated placement focusing on developing competencies working with people with eating, drinking and swallowing difficulties, giving an edge to our students in an speech and language therapy job market that increasingly emphasises dysphagia competencies

Year 1:

Classes cover phonetics, linguistics, anatomy and physiology; one-week placement.

Year 2:

Topics include adult aphasia, dysarthria and swallowing disorders, neurological and developmental disorder, audiology and ENT; placement of two days per week for eight weeks.

Year 3:

Learn about communication in lifelong conditions, fluency, voice and counselling and adult communication disorders; placement as in Year 2.

Year 4:

Research investigation; and advanced study options; placement of two days per week for 10 weeks, plus additional one-week block.
