

## Applied Mathematics (Arts and Social Sciences)

University of Aberdeen

### Venues

Old Aberdeen Campus

### Content

Applied Mathematics at Aberdeen gives you all the benefits of a top-quality mathematical education in a thriving centre of mathematical teaching and research, with focus on how we apply mathematics to better understand our world today.

Mathematics is not just about crunching numbers – it's about logical thinking, solving problems, decision making and understanding why things work – the main skills that recruiters look for in potential employees.

Mathematicians are in high demand across a range of sectors, including IT, finance, engineering and teaching.

Pure maths is about solving problems and developing theories within mathematics but applied maths is more about using mathematical theory to solve problems in other areas, including science, engineering, and physics. A lot of the theory that gets developed by pure mathematicians later becomes useful for applied mathematicians (and engineers, physicists etc.).

This Applied Mathematics BSc programme covers the core courses as studied in the pure Mathematics BSc degree. Additional core courses offered specifically in the Applied Maths degree include, Engineering Mathematics and Advanced Calculus. There are also a range of optional courses that can be chosen from both maths and physics areas.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

MA Hons

### UCAS Code

G122

## Course Length

4 years

## Faculty

Arts and Social Sciences

## Department

Social Science

## Entry Requirements

2025 entry requirements:

Standard entry:

4 Highers at BBBB (by end of S5) including Maths by end of S6 plus English at National 5. Those with Highers at BBB by end of S5 are encouraged to apply.

Entry to year 2 may be possible with 3 Advanced Highers at ABB including Maths at A.

Widening access entry:

2 Highers at BB (by end of S5). Additional Highers/Advanced Highers in S6.

1 Foundation Apprenticeship is accepted in place of a non-essential Higher.

## SCQF Level

10
