

Sustainable Development (Science)

University of St Andrews

Content

Sustainable Development is widely regarded as the most promising framework for addressing environmental and developmental challenges in the 21st century, including: the provision of clean water and adequate sanitation, energy generation and supply, human health, food production and distribution, and the continuing threat to biodiversity.

A Sustainable Development degree at St Andrews will enable you to understand developmental challenges from multiple perspectives and to utilise the knowledge you gain to tackle these challenges and realise the opportunities they create.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

F890

Course Length

4 years

Faculty

Faculty of Science

Department

Geography and Sustainable Development
