

## Biology with Arabic

University of St Andrews

### Content

Biology involves the study of life at all levels, from the molecular biology of virus replication to the study of animals and plants in their natural habitats. Biology also touches on many aspects of contemporary life, from drug design and investigating the molecular basis of Alzheimer's disease, to the migration and conservation of marine mammals – all of which can be studied at St Andrews.

Arabic has been for many centuries the language of thriving literatures and rich and diverse cultures. Modern Standard Arabic is arguably the strongest link uniting many diverse countries from 'the Ocean to the Gulf'. It is the official language of the 22 members of the Arab League and one of the 6 official languages of the UN.

Arabic has been taught in various forms at St Andrews for several centuries, and the Department has an excellent record of academic scholarship in Islamic studies, Arabic and wider Middle Eastern history, and mediaeval and modern Arabic literatures.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc Hons

### UCAS Code

CT16

### Course Length

4 years

### Faculty

Faculty of Science

### Department

Biology

## Entry Requirements

2025 entry requirements

Standard entry:

4 Highers at AAAB including Biology (or Human Biology) and Maths, Chemistry or Physics plus English at National 5 at B.

Widening access entry:

4 Highers at AABB including Biology (or Human Biology) and Maths, Chemistry or Physics plus English at National 5 at B. (You may gain entry to the Gateway programme with 4 Highers at BBBB).

## SCQF Level

10

## Progression Routes
