

Sustainable Aquaculture

University of St Andrews

Content

The PGDip/MSc in Sustainable Aquaculture offers a range of part-time, e-learning, postgraduate-level modules which aim to develop students' critical understanding of the development and principles of aquaculture.

Compulsory modules include: Aquaculture and fisheries; Biology for aquaculture; Health and disease; Local and global impacts of aquaculture; Management, husbandry and sustainability; Markets, products, processing and food safety; and Nutrition for aquaculture.

You can exit at 2 earlier stages with the PgCert Sustainable Aquaculture or the PgDip Sustainable Aquaculture.
