

Human Computer Interaction

University of St Andrews

Content

The MSc in Human Computer Interaction provides students with the tools, knowledge and skills to become practitioners in the areas of user experience, usability, information visualisation, human factors in computing systems, and human computer interaction research.

The programme is a specialist course but retains some flexibility, allowing students to pursue other areas of computer science alongside the compulsory specialist modules. The course develops students' practical skills in the process and practice of prototyping and implementing interactive computing systems.

You can exit after Semester 2 with PgDip Human Computer Interaction.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

1 year

Faculty

Faculty of Science

Department

Computer Science

Entry Requirements

A good 2.1 Honours undergraduate degree.

SCQF Level
