

## Mathematics

University of Strathclyde

### Content

This is a four-year programme. Each year contains compulsory modules and some years contain either optional modules, which relate to different areas of mathematics and/or elective modules from other subject areas in the University.

Years 1 and 2

In addition to core mathematical methods, you'll study applied analysis, mechanics, numerical analysis and statistics. You also choose elective modules.

Years 3 and 4

You'll choose from a range of Mathematics and Statistics modules from one or more of the specialist application areas.

As part of the final Honours year, you will undertake a project that includes a written report and an oral presentation.

Topics offered in Honours year modules include the mathematics of financial derivatives, mathematical modelling in biology and medicine, numerical analysis, and the mathematics of networks.

### Start Date

October

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc Hons

### UCAS Code

G100

### Course Length

4 years

## Faculty

Faculty of Science

## Department

Mathematics and Statistics
