

Hairdressing

Borders College

Venues

Scottish Borders Campus

Content

This award is designed for the creative, experienced practitioner who wishes to further develop their skills in specialist cutting, long hair, advanced colour and colour correction skills, fashion make-up and digital imaging. The broad spectrum of units offered allows students to gain valuable and varied employability skills. Core Skills for working in the hairdressing industry are an essential, timetabled part of this course.

This course is at both a technical and academic level of study and a considerable amount of research and home study is required.
