

Healthcare Practice

Open University in Scotland

Content

Healthcare professionals are essential to the functioning of health services, and this Certificate of Higher Education enables healthcare support staff to develop the knowledge, skills and understanding needed to underpin effective practice. You'll develop a wide range of practical skills and competencies while exploring essential biological, social, political, ethical, and psychological concepts. You'll also build valuable numeracy, literacy, IT, communication, and cognitive skills. If you're looking to enhance your current role, this course provides a solid foundation for further study and professional development.
