Beauty Therapy

Glasgow Clyde College

Venues

Langside Campus

Content

This high level course runs over two years and is an industry-recognised qualification that will help you develop the skills to deliver sought-after beauty treatments, from cosmetic peels and electrotherapy to facials and advanced massage techniques. You might also have the chance to do work experience within esteemed spas and salons or the Princess of Wales Hospice, as you learn these advanced techniques.

Year 1 will introduce you to salon equipment, allow you to develop and enhance popular beauty skills, and carry out all standard treatments within beauty therapy including facial and body techniques utilising manual and electro-therapy techniques. You will also study anatomy and physiology to underpin knowledge and understanding of the beauty treatment benefits and aims.

Year 2 will focus on developing competence in the use of advanced facial and body techniques, such as cosmetic peels, spa therapies and contemporary massage treatments. You will also study lifestyle advice for clients, promotional selling skills, product knowledge and business studies.

During training you will initially work on fellow classmates and then progress to working on real clients. You will also be required to model for treatments yourself.

Start Date

August

Qualification

HND
