

Horse Care (Advanced Certificate)

Scotland's Rural College (SRUC)

Venues

Oatridge Campus

Content

This course will give you the skills and knowledge you need to work in the horse care and equestrian industry. You'll learn about basic health care and diet, as well as monitoring and maintaining feed and bedding stocks.

The course also covers, among other modules, tacking up horses for specialist work, clipping and preparing horses for public appearance.

You'll cover a range of topics including delivering basic horse health care treatment, planning diets and implementing feeding regimes and monitoring and maintaining stocks of feed and bedding.

Other topics include reporting on health and wellbeing, tacking up horses for specialist work, clipping and preparing horses for public appearance.
