

## Horticulture with Plantsmanship

Scotland's Rural College (SRUC)

### Venues

Edinburgh Campus

### Content

This course gives you the skills you need to address a shortage of suitably qualified people with botanical abilities in plant identification and the techniques appropriate to historic garden restoration at a high level.

It develops your understanding of how to integrate the management of plant collections with knowledge of plant distribution, classification, diversity, structure, identification and cultivation.

It will give you the knowledge you need to study advanced aspects of botany, and gain an appreciation of the botanical issues in horticulture today.

You'll also learn techniques for restoring historic gardens, opening the way for employment in heritage organisations and an important role in preserving the early appreciation and understanding of horticulture that has developed into the discipline we know today.

The BSc /BSc Hons Horticulture with Plantsmanship is delivered in partnership with the Royal Botanic Garden Edinburgh (RBGE), with classes and practical work based at both RBGE and SRUC's Edinburgh campus, giving you access to the considerable resources and expertise of both organisations.

Example modules: Ethnobotany; Horticultural Plant Physiology; Horticultural Taxonomy; Victorian Horticulture; Conservation of Gardens and Designed Landscapes.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc/BSc Hons

### UCAS Code

D4D7

### Course Length

3 - 4 years

### Department

Horticulture and Landscaping

### Entry Requirements

4 Highers at BBCC including a science subject plus English and Maths at National 5

### SCQF Level

9/10
