

Brewing and Distilling

Heriot-Watt University

Venues

Edinburgh Campus

Content

This programme prepares candidates for entry into the malting, brewing or distilling industries, or to conduct research. It covers a broad range of subjects, from brewing science and chemical engineering, to business studies and production management.

The quickly developing craft industry, both in brewing and distilling, requires graduates with knowledge of modern instrumentation and this programme will ensure you build the skills and know-how required to perform successfully in the industry.

Our series of 'Fit for work' events held on campus include seminars, talks, networking and recruitment exercises and involve a range of industry professionals from graduates with their own companies, to representatives from the major breweries and distilling companies.

You can exit at the end of 9 months with PgDip Brewing and Distilling.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

12 months

Faculty

School of Energy, Geoscience, Infrastructure and Society

Department

Life Sciences
