

Investment Management

Heriot-Watt University

Venues

Edinburgh Campus

Content

Edinburgh is a major centre for investment management with a long and proud history. The MSc in Investment Management provides key investment knowledge with a specific industry focus. A unique feature of the programme is the Current Topics in Investment Management course, where senior investment practitioners give weekly guest lectures, providing insight into the investment industry and allowing students to gain a real-life perspective on the knowledge and theories they are studying.

Discussion of academic theories and their limitations is combined with an emphasis on practical application. Staff teaching on the programme are at the forefront of research and practice in finance and investment management and most are also members of the Centre for Finance & Investment (CFI) which brings Heriot-Watt academics with an interest in finance and investment together with senior practitioners from the local financial community.
