Content

During this hands-on degree, you will acquire crucial transferable skills including critical thinking, problem-solving, communication and team working. You will also develop creativity skills and will build on your confidence and research abilities which will help you succeed in your career and personal life.

Throughout this programme, you'll gain knowledge, understanding and subject skills related to the principles and practice of modern business management. You will be provided with opportunities to explore and develop links with industry, which will prepare you for employment in a variety of management careers.

Throughout this degree, you'll have the opportunity to choose optional courses – such as talent management, project management, consumer behaviour and innovation management – to customise your learning and develop your professional interests.
