Edinburgh Campus

Content

This BSc Actuarial Science degree programme is ideal if you love maths and are looking for a course that offers a rewarding career – both intellectually and financially. As 30% of teaching staff are qualified actuaries, on this programme you'll gain up to date industry knowledge and skills applicable to the working world. There are also opportunities to undertake paid industry placements and spend an exchange year in Canada, Australia or on Heriot Watt's own Malaysia campus.

Actuarial work is seen as one of the most satisfying careers in the UK, owing to its intellectually stimulating nature, lucrative pay, schedule flexibility, and excellent job prospects. Actuaries enjoy applying their advanced quantitative skills to solve complex business problems involving risk analysis, in traditional areas of insurance and pensions and as well as exciting new opportunities such as health, technology, banking, finance and climate change.
