

Information Systems (Interaction Design)

Heriot-Watt University

Venues

Edinburgh Campus

Content

First Year: Level 1 combines databases, an introduction to computer systems, programming, investigations of emerging technology and technology in society, and management.

Second Year: You will cover topics in understanding of organisations, project management, interaction design, databases and human factors. You will also cover software design - both high-level architectural issues as well as algorithms and data structures.

Third Year: You will cover courses such as socio-technical systems, knowledge management, critical thinking and management of organisations, which lead to a group project.

Fourth Year: You will take advanced topics as well as a major individual project in level 4.
