Content

The Master of Mathematics (MMath) provides students with a rigorous education in mathematical theory and practice, developing their expertise across pure and applied mathematics, statistics, and computational mathematics.

The MMath degree programme utilises the BSc Mathematics course provision up to level 4 and then uses Masters level courses in the final year of the programme. It is designed to equip you with the ability to formulate and solve real-world problems. Mathematics provides the tools to make advances in science, technology and engineering and therefore your mathematical skills will be in high demand in a wide range of sectors.
