Media and Communication

West College Scotland

Venues

Clydebank Campus

Content

You learn about and use:
Video, Radio And Television Production; Social Media; Research And Project Management; Film Analysis; Animation; Writing And Editing For The Media; Photography; Podcasting; Multimedia Journalism; Media Law, Compliance and Ethics.

You'll develop an understanding of the creative economy and have opportunities to take part in work experience, field trips and masterclasses from industry professionals. The course will be part college-based, and part external live briefs, often with an emphasis on teamwork. You'll use your skills to complete an individual graded project by the end of the course.
