

## Medicine

University of Aberdeen

### Venues

Foresterhill Campus

### Content

The MBChB curriculum has been recently revised to ensure that it remains up-to-date and the introduction of the new course coincided with the opening of the new Suttie Centre. The main features of the new programme are increased integration of basic science and clinical teaching in the early years and the introduction of a Personal and Professional Development thread (PPD) that runs through all five years. Years 1, 2 and 3 of the programme offer close integration of basic science and clinical teaching and the use of clinical cases (case-based learning) to allow students to apply their scientific knowledge in a clinical context.

Teaching is systems based, with the final integration of the examination of all body systems coming in third year.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

MB ChB

### UCAS Code

A100

### Course Length

5 years

### Faculty

Life Sciences and Medicine

### Department

Medicine, Medical Sciences and Nutrition

## Entry Requirements

2020 entry requirements:

5 Highers at AAAAB (first sitting) including Chemistry and 2 from Maths, Biology (or Human Biology) and Physics plus English and Maths at National 5 at B. (For those only attempting 4 Highers due to school policy or personal difficulties, AAAA would be required).

Applications are not normally considered after S5. For those that meet the above requirements, may choose to continue their studies in S6 and are free to choose a programme of study which is of particular interest to them.

All candidates must complete the UK CAT by the appropriate closing date for that year's entry. For more information visit [www.ukcat.ac.uk](http://www.ukcat.ac.uk)

## SCQF Level

10
