

## Environmental Protection and Management

Scotland's Rural College (SRUC)

### Venues

Edinburgh Campus

### Content

This programme aims to provide both an understanding of the processes that give rise to environmental degradation and pollution problems, and a capability in management of natural resources. Climate change is a particularly important threat, and is an issue that is dealt with in-depth in a number of the course modules.

You can exit after 9 months with PgDip Environmental Protection and Management.

Students progressing to the MSc will undertake a further 3 month period of directed study leading to the production of a dissertation in late September. Each module will be assessed by a combination of course work and examination. The examination paper will administered at the end of this period.

### Start Date

September

### Qualification

Postgraduate Master's

### Study Method

Full time

### Award Title

MSc

### Course Length

1 year

### Department

Postgraduate

### Entry Requirements

Preferably a 2.1 Honours degree or equivalent in a biological, environmental or physical science, geography, engineering, economics or other relevant subject.

### SCQF Level

11
