

## CCTV Operator

A CCTV (closed circuit television) operator works in a central control room, monitoring and controlling a bank of screens. These are linked to surveillance cameras placed in public places, buildings and places such as construction sites, to detect and prevent crime, and protect people.

### The Work

You could be:

- sitting in front of a bank of up to 15 screens, constantly monitoring the live pictures that come in from the surveillance cameras
- operating the position of the cameras, for example if a cash machine is about to be emptied, you would focus the camera on the security guard
- monitoring anyone acting suspiciously, and alerting security staff or police if you see an act of theft, vandalism or any other crime
- monitoring cleaning staff working in large empty buildings for their safety
- notifying the police of any anti-social behaviour
- keeping a log of all incidents to pass onto police
- called to give evidence in court as a witness.

### Pay

The figures below are only a guide. Actual pay rates may vary, depending on:

- where you work
- the size of the company or organisation you work for
- the demand for the job.

The starting salary is around £22,000 to £25,000 a year. Police Scotland pay around £28,000

You may get a shift allowance.

### Conditions

- You would work indoors in a central control room in front of a number of screens.
- You would be expected to work shifts to cover 24 hours a day, 7 days a week. Many jobs advertised are for 12 hour shifts with 4 days on and 4 days off.
- You may work in a team of operators or on your own.
- You would keep in frequent contact with colleagues through telephone and radio contact.

### Getting In

- There are no formal entry requirements.
- Previous experience in a security position may be useful but is not necessary.

- A Public Space Surveillance (CCTV) Licence from the Security Industry Authority (SIA) is required to work as a CCTV operator. Some employers will expect you to already have this licence.
- To qualify for this licence you must be aged 18 or over. You will also need to pass an identity check, a criminal record check and have achieved an SIA approved Award for Working as a CCTV Operator (Public Space Surveillance) in the Private Security Industry (Scotland) at SCQF Level 6.
- To achieve this you must study three mandatory modules, which take 32 hours to complete.
- See the SIA website for a list of accredited Public Space Surveillance (CCTV) qualifications.

Jobs are often with local authorities which will be advertised on [myjobscotland](http://myjobscotland) website. There are also jobs with Police Scotland in some areas. See their [website](#) for current vacancies.

## What Does It Take

You should be:

- alert and observant
- able to work alone without supervision
- able to concentrate over long periods
- discreet, never discussing anything you see on the monitors with anyone outside work
- able to remain calm under pressure
- able to react quickly
- computer literate
- able to work in a team and alone.

You should have:

- excellent communication skills
- a responsible approach.

## Training

Training is usually on the job. Your employer may put you through the qualifications necessary to obtain the Public Space Surveillance (CCTV) Licence.

## Getting On

Working in a large organisation may give you better potential for promotion to supervisor or manager.
