

Higher Economics (Course Code: C822 76)

SCQF Level 6 (24 Credit Points)

Why study Economics?

Economics is about choice and its impact. It relates to every aspect of our lives, from the decisions we make as individuals or families to the structures created by governments and businesses.

Studying Economics will help you understand and make use of economic information. You will learn to analyse, interpret, predict and explain the actions of individuals, businesses and governments to various economic situations. You will develop an appreciation of how markets and governments work and how the decisions taken in these economic contexts affect our daily lives.

Economics is therefore a useful subject for many students, particularly if you are interested in a career in business or finance, central or local government.

Career Pathways

To see what career areas this subject could lead to and the routes to get there, download and view these career pathways:

[Administration and Management](#)

[Finance](#)

What do I need to get in?

Entry is at the discretion of the school or college, but you would normally be expected to have:

- **National 5 Economics**

What will I study?

The course consists of **three** areas of study.

Economics of the market

You will develop your understanding of how to analyse the basic economic problem, and examine and analyse how demand and supply drives resource allocation and economic production.

UK economic activity

You will develop your understanding of how to analyse government income and expenditure, and evaluate the role of the public and private sectors in the economy. You will develop the ability to assess the policies and other methods used by the UK government to achieve its economic aims.

Global economic activity

You will develop your understanding of how to analyse the global nature of economics, and explore global trade and its importance to the UK economy. You will examine economic features and impacts of developing, emerging and developed economies, and global institutions.

How will I be assessed?

The course assessment has **two** components **totalling 120 marks**:

- Component 1: question paper – worth 90 marks (consisting of two sections: section 1 worth 30 marks, and section 2 worth 60 marks)
- Component 2: assignment – worth 30 marks.

For the assignment component, you will choose a topic to research and produce an economics report based on an analysis of your research findings, detailing appropriate conclusions and/or recommendations.

Both the question paper and the assignment are set and externally marked by the Scottish Qualifications Authority (SQA).

The grade awarded is based on the total marks achieved across course assessment.

The course assessment is graded A-D.
