

Advanced Higher Graphic Communication (Course Code: C835 77)

SCQF Level 7 (32 Credit Points)

Why study Graphic Communication?

Graphic Communication in all its forms is vital to society. It is a means of getting across information visually using graphics. Graphic communication comes in many forms and various aspects of life including education, industry and commerce.

This course is designed to increase your awareness of how graphics are used, and to learn about the technology used to create them. You will create 2D, 3D and pictorial graphics with visual impact or that transmits information, digitally and on paper.

The skills you learn in this course are useful in many career areas including Architecture, Surveying, Engineering or Design and Marketing.

Career Pathways

What do I need to get in?

This is at the discretion of the school/college but you would normally be expected to have attained one of the following:

- Higher Graphic Communication

What will I study?

The course comprises **two** areas of study.

Technical Graphics

You will:

- develop and creatively apply the graphic communication knowledge, skills and understanding which directly support graphic designing and communication activities in the various contexts of technical activities
- experience graphic communication in technical detail through exploring the purposes, applications and audience requirements
- use a range of knowledge and skills through manual and/or electronic-based communication activities
- explore the use of detailed 2D and 3D graphics in modelling, graphic visualisation and technical/mechanical animation in relation to technical activities.

Commercial and Visual Media Graphics

This unit is particularly relevant for those with an interest in the broad commercial and visual media use of graphics which might include presentation work, magazines, newspapers, informational manuals, static promotional work, website page layout, graphic design, advertising and point of sale, digital media, games, animation, expressive arts, electronic-based learning and advertising.

You will:

- explore a range of effective commercial and visual media graphic communication activities and their application in the fields of publishing and promotion
- develop graphic design skills, with an expectation of review, evaluation, amendment and presentation
- develop a deep understanding of the needs of the intended audience.

How will I be assessed?

Course assessment

The course assessment consists of **two** components **totalling 180 marks**:

- Component 1: Question paper (90 marks)
- Component 2: Project (90 marks).

For the project you will be asked to develop a solution to a complex graphic communication task.

Both the question paper and the project are set and externally marked by the Scottish Qualifications Authority (SQA).

The grade awarded is based on the total marks achieved across course assessment.

The course assessment is graded A-D.

What can I go on to next?

Further study, training or employment in:

- Art and Design
- Computing and ICT
- Construction
- Engineering
- Manufacturing Industries
- Science and Mathematics
