

Higher Engineering (SCQF Level 6) (Course Code: N/A)

SCQF Level 6 (24 Credit Points)

Why study Engineering (SCQF Level 6)?

You will study for an NC in an engineering discipline such as:

- Engineering Systems
- Mechanical Engineering or Electrical Engineering
- Aeronautical Engineering
- Fabrication and Welding Engineering
- Manufacturing Engineering
- Measurement and Control Engineering.

To achieve your SVQ units, you'll be assessed as part of your work placement and learn how to comply with statutory regulations and organisational safety, use and interpret engineering data and documentation, and work efficiently and effectively in engineering.

What do I need to get in?

These vary depending on whether you start the Foundation Apprenticeship in S5 or S6. It could range from some subjects at National 5 to 1 or 2 Highers. Check with your school for details.

What will I study?

The Foundation Apprenticeship (FA) in Engineering is for pupils staying on at school. You can choose an FA as one of your subjects in S5 or S6.

How will I be assessed?

- NC in an engineering discipline such as Engineering Systems, Electrical Engineering or Mechanical Engineering at SCQF Level 6
- core units of an SVQ Performing Engineering Operations at SCQF Level 5.

Study Materials

What can I go on to next?

- Employment.
- You could continue your studies at college or university, gaining an HND or degree in an engineering discipline.
- You could complete a Modern Apprenticeship in Engineering.
- You could progress to a Graduate Apprenticeship in an engineering subject.

Further study, training or employment in:

- Construction
- Engineering
